References such as the one sent down in your letter of the 7th are always greatly appreciated and please feel free to send them to me at any time. While nothing may come of any one individual case, such informal contacts have proved most valuable. I will pass it on to the appropriate people, who may or may not tell me what they do with it. I take it he has a fairly long stretch still to go in the army, and we may not be able to do anything during that time. Sometimes when things get a little discouraging, I feel it takes about that long to straighten things out down here in any case.

I may be up in a couple of weeks, and if so, I will give you a call. Best to all of the family.

Very truly yours,

Lawrence R. Houston
